## world habitat day 2021

On October 4, 2021, we closed the office and opened our toolboxes for World Habitat Day!

This World Habitat Day, Habitat Choptank affiliate staff, ReStore staff, and board members gathered for a build day. They spent the day working on one of our Habitat homes in Dorchester County on historic Pine Street.

If you're interested in lending a hand at one of our build sites, click the button below to become a volunteer!

# ReStore anniversary sale

**The Habitat for Humanity ReStore is celebrating their 30th anniversary this year!**

**The first Habitat ReStore opened in Winnipeg in 1991, and now over 1,000 ReStores make Habitat for Humanity's mission possible.**

**Our own Habitat Choptank ReStore is 11 years old, so for over a decade, the ReStore has helped us further our mission of building decent and affordable homes in Dorchester and Talbot Counties.**

**To celebrate these anniversaries, our Habitat Choptank ReStore will have an anniversary sale from November 2 to 6! During this sale, get a scratch-off card to win up to 30% off of your purchase (excluding paints and gift cards).**

**Learn more about shopping, donating, and volunteering at the ReStore below!**

# donating stocks

**Did you know that you can donate stocks? There are many creative ways to give to Habitat Choptank. We're always pleased to accept gifts of stock, and the process to donate them is easy!**

**For more information, click the button below.**

## did you know?

Did you know that every Habitat Choptank home is durable, accessible, and energy efficient?

All of our homes are built with durable materials, including prefinished James Hardie plank siding, and concrete and bricks for the front porch. We build with "Habitat strong construction standards," which include reinforcement in the foundation walls and the attic to add to the longevity of the house.

Habitat homes are accessible, implementing universal design features. Our homes include lower light switches, a bedroom on the first floor of two-story homes, and lever handles on all of the doors so that homeowners can stay in their homes as they age.

Our homes come with Energy Star appliances, and we install water heaters which can be used in several different energy-saving modes.

Click the button below to learn more about our homes and how we build them!
