four modulars installed

This month, four modular homes were installed on Prospect Avenue in Easton.

A single lot on Prospect Avenue has been subdivided into four lots. Each lot will have a single-story house with off-street parking. Now that the modular homes have been delivered and assembled, volunteers will work on the siding, porches, sheds, and more.

The use of modular homes allows our homebuyers to move into their

homes quickly. These homes help us meet the growing need for safe and affordable housing in our service areas.
